SUMMARY

I'm a Web Frontend Developer with 4+ years of experience, passionate about front-end challenges and user experience. I enjoy learning new technologies and am a collaborative team player.

I take pride in building clean, responsive, and maintainable interfaces. Continuously striving to bridge the gap between design and development to deliver seamless user interactions.

PROFESSIONAL EXPERIENCE

FPT SOFTWARE COMPANY LIMITED

November 2021 / May 2024 -
July 2024 / Present

Frontend Developer

PROJECT: SKCC - Tmembership (Team size: 8)

A collection of internal projects for SK Group (Korea). Participated in 3 main projects:

- **Project 1 – SEO HTML Templates**
 - Built SEO-optimized HTML/CSS/JS templates for public-facing pages integrated into client systems.
 - *Tech stack: HTML, CSS, JavaScript*
 - *Users: Tens of thousands (public website)*
- **Project 2 – Internal AI Chatbot**
 - Developed the frontend for an internal AI chatbot used across the entire company.
 - *Tech stack: ReactJS*
 - *Users: Thousands (internal employees)*
- **Project 3 – UI Component Library**
 - Created a reusable UI component library with integrated Storybook for internal teams.
 - *Tech stack: VueJS, Storybook*

Key Contributions:

- Direct communication with client to clarify requirements and define implementation plans.
- Reviewed team members' code and maintained code quality.
- Hosted internal tech seminars to share knowledge and improve team workflows.
- Provided technical support across multiple sub-projects.

VNDIRECT SECURITIES CORPORATION (IPA GROUP)

May 2023 - June 2024

Frontend Developer

PROJECT: KMS Website (Team size: 3)

An internal product of the company (not an outsourced project), developed for IPA Group.

- Built a document management and sharing platform for internal use across the organization.
- *Users: All internal employees of IPA Group*
- *Tech stack: ReactJS, Next.js, Ant Design, React Query, Figma*

Key Contributions:

- Collaborated with cross-functional teams to define features and user interface.
- Developed the user-facing website using Next.js and the admin interface using ReactJS.

PROJECT: HomeFood Website (Team size: 3)

An in-house e-commerce product developed for the IPA Group (not an outsourced project).

- A plant-based e-commerce platform for selling macrobiotic products and vegetarian meals, featuring blog content and restaurant booking functionality.
- *Users*: Public users and internal administrators
- *Tech stack*: Next.js, ReactJS, Figma, Sentry

Key Contributions:

- Collaborated with related teams to define features and user interface.
- Developed the user-facing website using Next.js and the admin dashboard using ReactJS.

PROJECT: Homefood Sale App (Team size: 3)

A mobile app product developed for internal sales staff of the IPA Group (not an outsourced project).

- A mobile application for inventory management, order creation, and customer care within the Homefood system.
- *Users*: Internal sales and admin staff
- *Tech stack*: React Native, React Query, Recoil, Figma

Key Contributions:

- Built the mobile frontend using React Native based on Figma designs.
- Integrated data fetching with React Query and managed app state using Recoil.
- Worked closely with related teams to define features and optimize user interface.
- Participated in deploying the mobile app to both iOS and Android platforms.

PROJECT: Stockbook Social Network (Team size: 8)

A public social networking platform that allows users to share and discuss stock-related information.

- *Users*: Large public user base
- *Tech stack*: ReactJS, Sentry, Figma

Key Contributions:

- Maintained and enhanced the platform's frontend codebase.
- Implemented the **"transaction view"** feature using ReactJS.
- Collaborated with cross-functional teams to fix UI and logic bugs.
- Participated in deploying the website to development and production environments.

RELATED SKILLS

Programming Language: Javascript, TypeScript.

Frameworks/Libraries: ReactJS, React Native, NextJS, VueJS, Svelte, Ant design, Bootstrap, TailwindCss, NodeJS, Recoil, Redux, React query

Database: MongoDB, Solr

Version Control: Git, Gerrit.

Design: Figma, Photoshop.

Language: English (Toeic 770)

Others:

- Have hands-on experience in deploying applications to NGINX, and Vercel servers.
- Understanding of OOP methodologies

EDUCATION

Automation Engineering

Aug 2016 - May 2021

Military Technical Academy

CERTIFICATIONS

Interstate21 - React Level 1 Certification

<https://interstate21.com/certificate/?code=4C23RA6>

Free Code Camp - Front End Development Libraries

<https://www.freecodecamp.org/certification/justhoann/front-end-development-libraries>

Free Code Camp - Javascript Algorithms and Data Structures

<https://www.freecodecamp.org/certification/justhoann/javascript-algorithms-and-data-structures>

Interstate21 - Angular Level 1 Certification

<https://interstate21.com/certificate/?code=4C26SBB>

TOEIC ETS 770

INTERESTS

I like playing guitar and organ, reading books, travelling and learning new things

ADDITIONAL INFORMATION

- Eager to learn, fast learner, good listener.
- Enthusiastic and responsible at work.
- Sociable with people.
